

Quality! Service! Price!

Our customers demand quality and NEPA Carton delivers with our state-of-the-art KBA Rapida 57-inch six color press. Our new press provides color consistency run to run and faster production and turn around times to our nationwide clients!

WHAT?

The KBA Rapida 145 57-inch six-color press.

WHY?

Our commitment to quality package printing and customer satisfaction.

HOW?

This press is equipped with the latest automation technology including KBA Quali-Tronic Color Control. An in-line color measurement and camera control system that monitors and maintains color consistency.

☀ **Computer to press** - jobs are calibrated from proof to finished product, taking the guess-work out.

☀ **Consistency** - during the press run, the camera takes a snapshot of every sheet, transmits data on ink density, and makes high speed adjustments continually to ensure color uniformity.

FEATURING:

- In-Line UV or Aqueous Coating
- Capable of Printing 14pt to 40pt Stock
- Automated Sheet Registration
- In-Line Computerized Color Control
- Every Sheet Automatically Scanned for Color Consistency
